

Landscape, Wildlife and Marine

A natural Art experience

This workshop has been conceived for those students who want to draw and/or paint outdoors the **monuments** of Florence, the enthralling charm of the Tuscan **countryside** (where Leonardo da Vinci was born), the natural beauty of a wildlife park and the magic of the **seascape**.

The aim of the course is to help the student to create a sketchbook with **unforgettable memories** of the different landscapes and beautiful places.

The course can be recommended both to Art novices and to experienced artists and professionals who intend to familiarize with the freehand drawing as well as with the **perspective** sketch.

During en plein air sessions students will learn how to draw and paint architectural elements, landscapes, plants and trees (and wild animals if you are lucky).

The following techniques can be chosen: **pencil, water colour, oil painting** and **pastel**. Practice can also concentrate on the use of colour. The workshop is open to all students and will be held both in **English** and in **Italian**.
