

Art in the museums of Florence

Draw and paint some of the masterpieces of the Italian art inside the museums

This is a unique seminar that will allow you to spend several hours in the company of the **most renowned works of art** on display in the major museums of Florence. You will have the extraordinary opportunity of admiring paintings and sculptures by the old masters, you may be inspired by them, you will be able to peruse the details and peculiarities of each work, and, while trying to copy a masterpiece, you will grasp its beauty and its most inner senses.

*The course will take place both in the **museums and churches of Florence** (Orsanmichele, Bargello museum, Specola Museum, Medici Chapels) and outdoors in the historical gardens (Bardini gardens), where you will be able to study how sculptures mingle with nature.*

This workshop is recommended for those who wish to tackle the works of the Renaissance masters, as well cope with more unusual topics related to this artistic period. It is also ideal for those artists who want to enrich their wealth of experience. But **also Art novices** can attend the lessons since the group size is rather small and the teacher is able to tutor each student individually.

Each student can approach to the techniques he/she wants to learn or develop, for example pencil, charcoal drawing, watercolour, oil painting.

At the end of the course the students will have visited some of the most important museums, they will have admired the **most celebrated paintings and sculptures** of Florence and they will have got acquainted with the hidden treasures of the city. And last but not least, each participant will **take home memories** either drawn in his/her sketchbook or painted in his/her canvas.
