

Floral Painting workshop

Bring on your canvas the beauty of nature

Have you ever tried to seize the ephemeral beauty of a flower? Have you ever managed to paint its colourful image? If so, your attempt is not only an aspect of your passion for Art but it can lead you to better express your **creativity**, improve your **artistic skills** and see the essence of things.

In our seminar you will start drawing various flower shapes with the help of **pictures** (which can be provided either by our teachers or by yourself).

You will then experiment the **use of colours** by using the media you want to focus on (for example pastels, watercolour, oil, acrylic). You will study the **contrast** of complementary colours. You will realise how important is the effect both of **sunlight and artificial light** on a flower. You will learn to add **depth** and **volume** to your subject by using different layers of colours.

Meanwhile you will also analyse some exemplary works by famous artists in order to understand the secrets of their techniques of **flower composition**. Last, but not least, you will work with **real flowers** and you will eventually depict them in their eternal beauty.

The course is open to everybody, and it is held by our qualified and experienced teachers.

Price

PDF, 1 week, 30 hours, €595
Enrolment fee €45

Course price includes

- Basic Art material: normal paper, pencils.
- A certificate at the end of the course

Animal Painting

Learn how to portray your favourite animals

Over the centuries artists have always represented in their works animals. If you too, like the old masters, are eager to focus on this particular type of portrait this painting seminar will **uncover the secrets** for drawing and painting the animals you love and care for.

You will start from studying the most significant artworks by some of the great masters, such as **Tiziano, Rembrandt** and **Vermeer**. You will be taught to discover their techniques as well as their style.

Most of the classes will concentrate on the observation and on the representation of **pictures of animals** that either you or our teacher may produce. Out of these pictures you will try to detect the **“temper” of each animal**, its main features and its beauty.

Firstly, you will learn to draw **sketches** of the animal, which will help you to understand its volume and anatomy. Then you will pass to **colours**. While painting animals you will also realize how important is the choice of the right brush in order to depict the subject in the most realistic way (or surrealistic if you wish).

The main media that you will practice during the workshop will comprise **oil, acrylic, watercolour and pastels**.

This intensive course **is open to anybody**, both to apprentices and to accomplished artists. All our Art instructors are qualified and experienced teachers. If you wish to find out more about them, please refer to this page.
